Understand your new Edbro C Series part number:

C	Displacement cylinder assembly	
S	Cylinder type	S = seperate oil tank X = combined oil tank
17	Diameter of cylinder 1st extension (cm)	
0	Base end fixing	0 = trunnion/arms E = eye S = spherical eye
S	Small inner end fixing	0 = outer cover/trunnion E = eye S = spherical eye
5	Number of cylinder stages	
5733	Total final stroke of the cylinder (mm)	
B	Feed type	B = BSP feed S = SAE flange T = Twin BSP feed N = 90º BSP feed
70	Feed position (from trunnion axis)	14 = 137 mm 19 = 190 mm 25 = 250 mm 70 = 700 mm
A	Small inner stop position (increased in 50 mm increments)	A = no stop B = stop at 50 mm C = stop at 100 mm ... Y = stop at 1000 mm
08	Unique code (refer to outline drawing)	
C	Chrome option	C = full chrome Eye types - chromed small inner Cover type - non chrome
